

Air 1 serves the local residence by providing family-friendly positive music.
The station provides wholesome values to the community.

If Air1 was to be displaced by LPFM stations many of the people out in the world
would not be able to get the positive
reinforcement that is needed to live a positive and balanced lifestyle.

Air1service is a public interest that need to remain around forever.
If the Air1 loses it broadcast my friends and I will be forced to listen to crap
like Eminem.
Please do not allow for this heinous and horrible crime to transpire.
